

## The Meeting Place For The Global LNG Industry

---

*LNG Exchanges with Marcel Tijhuis, Senior Project Manager Business  
Development LNG, German LNG Terminal*

---

- **What are the themes to frame market development in 2022/3, and what are the associated risks?**

Supply disruptions because of the Russian war, high demand, high prices and a lot of LNG to (NW) Europe.

- **How can energy security be balanced with decarbonisation pledges?**

Diversification between, maximizing available sustainable energy and maximizing supply routes and import capacities for LNG/natural gas.

- **What do you consider the key disruptors to LNG through to 2040?**

Political developments, lack of agreement, Europe wide, how to approach and solve the current energy crises.

- **How can LNG stay affordable, reliable and abundant?**

Mix maximizing the availability of LNG and import capacity with optimizing sustainable developments.

- **You are speaking at the World LNG Summit this year. What are you most looking forward to at the event?**

To meet and discuss with the LNG industry community.
